

## Sticky Knowledge:

- There are 5 different animal groups, this includes, fish, reptiles, mammals, amphibians and birds.
- All animals including humans need to eat, drink and breathe to survive,
- Animals and humans have offspring which grow into adults
- Humans and other animals find out about the world using their senses.

**Carnivores** are animals that only eat meat.

**Herbivores** are animals that only eat plants.

**Omnivores** are animals that eat both meat and plants.

## Key Vocabulary:

- Mammals
- Amphibians
- Reptiles
- Birds
- Fish
- Carnivores
- Herbivores
- Omnivores
- Offspring
- Senses
- Sight
- Smell
- Touch
- Feel
- Hear

## Our Learning Journey:

1) We will be learning about different groups of animals.

2) We will be learning about animals that are carnivores, herbivores and omnivores.

3) We will be describing and comparing the structure of different animals.

4) We will be finding out what an animal needs to survive.

5) We will be learning what offspring is.

6) We will be learning about the different parts of the human body.

7) We will be learning about the five senses.
