

Curriculum Map for Geography

Early Years

To support our play based learning in Early Years, our skilled Early Years teachers will identify and plan opportunities for all children to develop key knowledge and skills which will support them in successfully accessing the National Curriculum for Geography when they enter Year One. The children are guided to make sense of their physical world and their community through opportunities for learning at the level appropriate for 3 to 5 year olds while beginning to build their locational and place knowledge both physical and human. Skills used will build to prepare the children to use geographical skills and fieldwork in Key Stage 1.

All planned opportunities over the year are as a result of teachers making informed decisions about what a child needs to learn and be able to do next, this will ensure there is clear evidence of the depth in learning in history through Understanding of the World. The evidence will come from teacher knowledge of every child and use of floor books to record learning journeys.

Statutory framework for the Early Years foundation stage: The most relevant statements for Geography are taken from the following areas of learning:

Understanding the World

Understanding the world involves guiding children to make sense of their physical world and their community. The frequency and range of children's personal experiences increases their knowledge and sense of the world around them – from visiting parks, libraries and museums to meeting important members of society such as police officers, nurses and firefighters. In addition, listening to a broad selection of stories, non-fiction, rhymes and poems will foster their understanding of our culturally, socially, technologically and ecologically diverse world. As well as building important knowledge, this extends their familiarity with words that support understanding across domains. Enriching and widening children's vocabulary will support later reading comprehension.

Communication and language

The development of children's spoken language underpins all seven areas of learning and development. Children's back-and-forth interactions from an early age form the foundations for language and cognitive development. The number and quality of the conversations they have with adults and peers throughout the day in a language-rich environment is crucial. By commenting on what children are interested in or doing, and echoing back what they say with new vocabulary added, practitioners will build children's language effectively. Reading frequently to children, and engaging them actively in stories, non-fiction, rhymes and poems, and then providing them with extensive opportunities to use and embed new words in a range of contexts, will give children the opportunity to thrive. Through conversation, story-telling and role play, where children share their ideas with support and modelling from their teacher, and sensitive questioning that invites them to elaborate, children become comfortable using a rich range of vocabulary and language structures.

ELG: People Culture and Communities Children at the expected level of development will:

- Describe their immediate environment using knowledge from observation, discussion, stories, non-fiction texts, and maps;
- Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps.

ELG: The Natural World Children at the expected level of development will:

- Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class.

Skills progression end points:

Area	Year N	Year R:
Geographical enquiry	Understand 'why' questions, like: "Why did we see a tractor in Reed?" Be able to express a point of view and to debate when they disagree with an adult or a friend, using words as well as actions. Start a conversation with an adult or a friend and continue it for many turns. Understand how to listen carefully and why listening is important Know that there are different countries in the world and talk about the differences they have experienced or seen in photos Show interest in different occupations. Continue developing positive attitudes about the differences between people. Talk about members of their immediate family and community. Name and describe people who are familiar to them.	Use new vocabulary in different contexts Engage in non-fiction books. Listen to and talk about selected non-fiction to develop a deep familiarity with new knowledge and vocabulary. Recognise some similarities and differences between life in this country and life in other countries. Recognise some environments that are different from the one in which they live. Understand the effect of changing seasons on the natural world around them.
Direction/Location	Describe a familiar route and made route. Discuss routes and locations, using words like 'in front of' and 'behind'.	Point to the North and South Poles on a globe. Use more complex directional language and beginning to use 'right and left'. Use their own or others maps to follow and give directions and use positional language: up, down, next to, in front of etc.

Drawing maps	Create closed shapes with continuous lines and begin to use these shapes to represent objects and features. Draw maps using shape and purposeful mark making.	Draw and create simple maps from memory about features and a familiar environment e.g. home, the school grounds. For example: Create memory maps of their school grounds and then explore out of doors to match identified features. Do a 'Drift' walk, noticing and mapping what they are looking out for e.g., 'the colour yellow'. Select materials to create their own map showing a given feature such as a mountain, and talk about their different interpretations of this activity. Create a 3D or 2D maps of a real setting, such as their own home, or of an imagined one prompted by a story, to discuss features and / or what you can do there.
Representation	Use some symbols as cues e.g. follow painted footsteps on a playground. Use objects as symbols to represent other objects e.g. line of sticks as a road.	Begin to use simple symbols on maps to show features and journeys.
Using maps	Begin to understand that maps hold information in patterns and print. Use maps for pretend play. Make imaginary maps with marks that have meaning. Follow simple routes on maps. Use journey strings or sticks to record information on a route, recall the journey and sequence the event, using the string or stick as a map.	Follow a simple route at a local scale, using familiar landmarks. Use journey sticks or strings to create simple drawn maps. Look at images of the Earth as seen from outer space and talk about what the colours and patterns represent. Use large scale aerial images to discuss what patterns and shapes they see. Record simple non-standard measurements on maps and plans.
Scale/Distance	Begin to explore scale through small world play.	Start to gain knowledge of their own country and its features. Zoom in to a map to find the school using a postcode. Know that you need to zoom out to see a larger area.
Perspective	Talk about distance and know that some places are further away than others.	
Map knowledge	Recognise some features at a large scale, using aerial views. eg the cars in the car park, the school building. Play simple digital games moving figures on a plan view e.g. of a room.	Manipulate and annotate large scale maps, adding simple text, markers, and photographs.
Style of map	Picture maps globe plans Use teacher drawn base maps. Use large scale OS maps.	
Vocabulary		
Locational Knowledge	above, far, in front of left near next to right under, besides, edge address, atlas, globe, map country	
Place Knowledge	Reed, Name of home town or village	
Human and Physical features	beach, hill, house, mountain, park, sea, school, street, town, village, city, woods, church, park, road, school, weather, sun, cold, wind, rain, cloud, snow, sleet, fog, seasons, Summer, Winter, Autumn, Spring busy, cold dirty hot muddy noisy pretty quiet safe ugly wet windy	
Map work	globe, map, left, right, forwards, backwards	

Key Stage One

National Curriculum:

Key stage One pupils should develop knowledge about the world, the United Kingdom and their locality. They should understand basic subject-specific vocabulary relating to human and physical geography and begin to use geographical skills, including first-hand observation, to enhance their locational awareness.

Pupils should be taught to:

Locational knowledge

- name and locate the world's seven continents and five oceans
- name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas

Place knowledge

- understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country

Human and physical geography

- identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles
- use basic geographical vocabulary to refer to:
 - key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather
 - key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop

Geographical skills and fieldwork

- use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage
- use simple compass directions (North, South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map
- use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key
- use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.

Some parts of the programmes of study are taught as continuous provision across the year, while other aspects are taught as topics. This is to ensure all of the children know, apply and understand the matters, skills and processes specified in the relevant programme of study and can build upon the skills progression during the year and over the two years in Key Stage One, preparing them for Key Stage 2.

Skills progression end points:

Area	Year 1	Year 2:
Geographical enquiry	<ul style="list-style-type: none"> <input type="checkbox"/> Teacher led enquiries, to ask and respond to simple closed questions. <input type="checkbox"/> Use information books/pictures as sources of information. <input type="checkbox"/> Investigate their surroundings <input type="checkbox"/> Make observations about where things are e.g. within school or local area. 	<ul style="list-style-type: none"> <input type="checkbox"/> Children encouraged to ask simple geographical questions; Where is it? What's it like? <input type="checkbox"/> Use NF books, stories, maps, pictures/photos and internet as sources of information. <input type="checkbox"/> Investigate their surroundings and compare areas. <input type="checkbox"/> Make appropriate observations about why things happen. <input type="checkbox"/> Make simple comparisons between features of different places.
Direction/Location	<ul style="list-style-type: none"> <input type="checkbox"/> Follow and give directions (Up, down, left/right, forwards/backwards) Use a compass to identify the direction of North. 	<ul style="list-style-type: none"> <input type="checkbox"/> Follow and give directions directions (as yr 1 and inc'. NSEW) Use a compass to identify the direction of North, South, East and West.
Drawing maps	<ul style="list-style-type: none"> <input type="checkbox"/> Draw picture maps of imaginary places and from stories. <input type="checkbox"/> Draw a picture map of familiar places, identifying key features and landmarks. 	<ul style="list-style-type: none"> <input type="checkbox"/> Draw a map of a real or imaginary place. (e.g. add detail to a sketch map from aerial photograph) show developing understanding of positioning features in relative space to each other.
Representation	<ul style="list-style-type: none"> <input type="checkbox"/> Use own symbols on imaginary map. Recognise the use of symbols on own maps and what they mean. 	<ul style="list-style-type: none"> <input type="checkbox"/> Begin to understand the need for a key. <input type="checkbox"/> Use class agreed symbols to make a simple key.
Using maps	<ul style="list-style-type: none"> <input type="checkbox"/> Derive information from a simple map. <input type="checkbox"/> Use a simple plan map of the school grounds to find and / or mark in features. <input type="checkbox"/> Use a simple picture map to move around the school. <input type="checkbox"/> Mark on an existing plan or map where they have been during the day and talk about this chronologically. <input type="checkbox"/> Recognise that it is about a place. 	<ul style="list-style-type: none"> <input type="checkbox"/> Follow and mark a route on a map. <input type="checkbox"/> Use a plan view to follow and make own maps. <input type="checkbox"/> Use an infant atlas to locate places.
Scale/Distance	<ul style="list-style-type: none"> <input type="checkbox"/> Use relative vocabulary (e.g. bigger/smaller, like/dislike) 	<ul style="list-style-type: none"> <input type="checkbox"/> Begin to spatially match places (e.g. recognise UK on a small scale and larger scale map)
Perspective	<ul style="list-style-type: none"> <input type="checkbox"/> Draw around objects to make a plan. 	<ul style="list-style-type: none"> <input type="checkbox"/> Look down on objects to make a plan view map.
Map knowledge	<ul style="list-style-type: none"> <input type="checkbox"/> Learn names of some places within/around the UK. E.g. Home town, cities, countries e.g. Wales, France. 	<ul style="list-style-type: none"> <input type="checkbox"/> Locate and name on UK map major features e.g. London, River Thames, home location, seas.
Style of map	<ul style="list-style-type: none"> <input type="checkbox"/> Picture maps and globes 	<ul style="list-style-type: none"> <input type="checkbox"/> Find land/sea on globe. <input type="checkbox"/> Use teacher drawn base maps. <input type="checkbox"/> Use large scale OS maps. <input type="checkbox"/> Use an infant atlas

Vocabulary progression:

Area	Year 1	Year 2:
Locational Knowledge	world, Earth, United Kingdom, England, Scotland, Wales, Northern Ireland, country	All of previous year plus:

	Atlantic Ocean, Southern Ocean, Indian Ocean, Arctic Ocean, Pacific Ocean, The Arctic Circle continent, Europe, North America, South America, Africa, Asia, Oceania and Antarctica	capital city, London, Edinburgh, Cardiff, Belfast, North Sea, Irish Sea, English Channel, country
Place Knowledge	island, compare, same, different, Reed, Royston, Nairobi, Kenya, Chembakolli, Tamil Nadu	comparison, describe, similarities, differences, area, human features, physical features, landmark, transport
Human and Physical features	natural, man-made, town, different types of houses (e.g. semi-detached, detached, bungalow, flat), shop, forest, hill, river, North Pole, South Pole, mountain, rock, waterfall, icicles, tundra, ice, iceberg, ocean Equator, hot, warm, savannah, grasslands, urban, rural	city, sea, port, harbour, beach, cliff, coast, valley, vegetation, shoreline, bay, cave, sand dunes
Map work	Atlas, symbol, compass directions, North, East, South, West	key, plan view, birds eye view, aerial view, navigate
Field Work	path, direction, forward, backward, left, right, near, far, position, sketch, pictogram	location, sketch map, route

Key Stage Two

National Curriculum:

Key stage 2 Pupils should extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world's most significant human and physical features. They should develop their use of geographical knowledge, understanding and skills to enhance their locational and place knowledge.

Pupils should be taught to:

Locational knowledge

- locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities
- name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time
- identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)

Place knowledge

- understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America

Human and physical geography

describe and understand key aspects of:

- physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle
- human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water

Geographical skills and fieldwork

- use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied
- use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world
- use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.

As we are a First School, our pupils complete Key Stage 2 at another setting. Where we cannot guarantee eras will not be covered more than once as children move to other settings in Year 5, we have aligned our curriculum as best we can to see the recommended parts of the curriculum for upper KS2 be taught in Years 5 and 6. Our skills based curriculum means that skills are built upon in every era learnt about. We have also mapped our local them of farming across all topics as this is relevant to many of our families in our rural setting.

Skills progression end points:

Area	Year 3	Year 4:
Geographical enquiry	<input type="checkbox"/> Ask/initiate geographical questions. <input type="checkbox"/> Use NF books, stories, atlases, pictures/photos and internet as sources of information. <input type="checkbox"/> Investigate places and themes at more than one scale <input type="checkbox"/> Begin to collect and record evidence <input type="checkbox"/> Analyse evidence and begin to draw conclusions e.g. make comparisons between two locations using photos/ pictures, temperatures in different locations.	<input type="checkbox"/> Ask and respond to questions and offer their own ideas. <input type="checkbox"/> Extend to satellite images, aerial photographs <input type="checkbox"/> Investigate places and themes at more than one scale <input type="checkbox"/> Collect and record evidence with some aid <input type="checkbox"/> Analyse evidence and draw conclusions e.g. make comparisons between locations photos/pictures/ maps
Direction/Location	<input type="checkbox"/> Use 4 compass points to follow/give directions: <input type="checkbox"/> Use letter/no. co-ordinates to locate features on a map.	<input type="checkbox"/> Use 4 compass points well: <input type="checkbox"/> Begin to use 8 compass points; <input type="checkbox"/> Use letter/no. co-ordinates to locate features on a map confidently.
Drawing maps	<input type="checkbox"/> Make a map of a short route experienced while walking it, with features in correct order and relative in space to each other. <input type="checkbox"/> Make a simple scale drawing using a given grid.	<input type="checkbox"/> Make a map of a longer route experienced while walking it, with features in correct order and relative space to each other. <input type="checkbox"/> Make a simple scale drawing choosing and creating own grid considering the size and scale needed.
Representation	<input type="checkbox"/> Know why a key is needed. <input type="checkbox"/> Use standard symbols for local area (footpath, bridleway, school, place of worship, rough grassland, mud, trees, road)	<input type="checkbox"/> Know why a key is needed. <input type="checkbox"/> Begin to recognise symbols on an OS map.
Using maps	<input type="checkbox"/> Locate places on larger scale maps e.g. map of Europe. <input type="checkbox"/> Follow a route on a map with some accuracy. (e.g. whilst orienteering)	<input type="checkbox"/> Locate places on large scale maps, (e.g. Find UK or India on globe) <input type="checkbox"/> Follow a route on a large scale map.
Scale/Distance	<input type="checkbox"/> Begin to match boundaries (E.g. find same boundary of a country on different scale maps.)	<input type="checkbox"/> Begin to match boundaries (E.g. find same boundary of a county on different scale maps.)
Perspective	<input type="checkbox"/> Begin to draw a sketch map from a high view point.	<input type="checkbox"/> Draw a sketch map from a high view point.
Map knowledge	<input type="checkbox"/> Begin to identify points on maps A,B and C	<input type="checkbox"/> Begin to identify significant places and environments
Style of map	<input type="checkbox"/> Use large scale OS maps. <input type="checkbox"/> Begin to use map sites on internet. <input type="checkbox"/> Begin to use junior atlases. <input type="checkbox"/> Begin to identify features on aerial/oblique photographs.	<input type="checkbox"/> Use large and medium scale OS maps. <input type="checkbox"/> Use junior atlases. <input type="checkbox"/> Use map sites on internet. <input type="checkbox"/> Identify features on aerial/oblique photographs.

Vocabulary:

Locational Knowledge	All of previous years plus: Northern, Southern Hemisphere, country, border, county Equator, Tropic of Cancer, Tropic of Capricorn, Arctic/Antarctic Circle.
Place Knowledge	explore, comparison, positive, negative, human geography, physical geography, key features, land use, population, language, currency, transport, landmarks, architecture identify, notice, culture, tourism, settlement
Human and Physical features	mountain ranges, lakes, volcanoes, farming, climate, climate zone, biome, flora, fauna, deciduous forest, grassland, tundra, arid, polar housing, businesses, factories, cathedral, university climate, precipitation, landscape, desert, jungle, mountain latitude, biome, rainforest, emergent layer, canopy, understory, forest floor, water cycle, evaporation, transpiration, condensation, precipitation, settlement trade, scale, local, national, global, import, export, goods, product, natural resources, supply chain, production, Fairtrade
Map work	atlas, map, symbols, aerial photograph, map key World map, 8 compass points, North, North-East, East, South-East, South, South-West, West, North-West, axis
Field Work	viewpoint, sketch map, label, photograph, title, route, observe, field sketch observe, measure, record, present, charts, graph, interpret, rainfall, temperature, rain gauge, centimetres (cm), millimetres (mm), lowest, highest, most, least, average, tally, title, axes

Lower Key Stage Two	<p>Continuous learning over A and B Years: These areas of learning will be taught and studied continuously through lower KS2 through continuous provision and daily access to resources and activities.</p>	<p>Climate Zones</p> <ul style="list-style-type: none"> Locational knowledge - identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle. 	<p>Teaching Sequences:</p>				

A Year:

These units of work will be taught as a topic in the A Year to ensure curriculum coverage in our mixed age classes.

Mountains

- **Human and physical geography** - Describe and understand key aspects of physical geography, including: mountains.
- **Geographical skills and fieldwork** - Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.
- **Human and physical geography** - Describe and understand key aspects of human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals.
- **Locational knowledge** - Name and locate key topographical features of the UK (including mountains).

Teaching Sequence:

Volcanoes

- **Human and physical geography** - Describe and understand key aspects of physical geography, including: volcanoes.
- **Geographical skills and fieldwork** - Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.

Teaching Sequence:

Escape to Italy

- **Place knowledge** - Locate Europe and its key human and physical characteristics. understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country
- **Geographical skills and fieldwork** - Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.
- **Locational knowledge** - Identify and locate Europe's major cities.

Human and physical geography - Describe and understand key aspects of physical geography, including climate zones, biomes and vegetation belts; human geography, including land use and economic activity.

Teaching Sequence:

B Year:

These units of work will be taught as a topic in the A Year to ensure curriculum coverage in our mixed age classes.

Rivers

- **Human and physical geography** - Describe and understand key aspects of physical geography, including: rivers and the water cycle.
- Describe and understand key aspects of human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water.
- **Geographical skills and fieldwork** - Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.

Teaching Sequence:

Our local area

- **Human and physical geography** - Describe and understand key aspects of human geography, including economic activity and trade links, the distribution of natural resources including food.
- **Geographical skills and fieldwork** - Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.
- Use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.
- **Locational Knowledge** - name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time.

Teaching Sequence:

North America

- **Locational knowledge** - Locate the world's countries, using maps to focus on North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities
- Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night).
- **Place knowledge** - understand geographical similarities and differences through the study of human and physical geography of a region within North or South America.
- **Geographical skills and fieldwork** - use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied

Teaching Sequence:
