

Exploring the work of Anders Celsius.

Using books, videos, the internet people and photos to find answers

Seasonal Changes Working Scientifically

We will continue to work on our working scientifically skills in our Science lessons. Some of the activities we may do include:

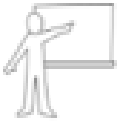

Performing simple tests and using equipment

Saying why a test is fair

Collect information about the weather.

Explaining results- saying what we found out

Record and explain the differences in what the weather is like across the seasons.

Recording information

Asking questions

Asking questions related to our Science topic.

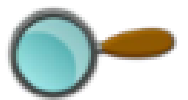

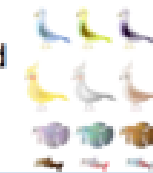

Observe changes in the weather.

Observe changes in the seasons.

Sort and group key features of each season.

Looking for patterns-
sorting and
grouping

Observing and measuring
