

Rocks

Working scientifically

 **Conduct own research on Mary Anning.**

Recognising when to use other sources of information to find answers

 **Observe rocks and fossils closely using magnifying glasses and a microscope.**

Carefully observing and accurately measuring

 **Explain the results you found when leading your own investigation.**

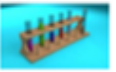

Explaining results- drawing conclusions and using results

Looking for patterns- identifying and classifying

Compare and group together different kinds of rocks on the basis of their appearance and physical properties.

Setting up enquiries and choosing equipment

Lead own investigation.

Setting up fair tests (with help)
